Oil & Petrochemicals

Pipelines

Expert Analytical Services for
Pipeline Operators

**BUREAU
VERITAS**

Pipelines

Bureau Veritas supports pipeline operators guaranteeing the quality of products at various points in transit. Our global laboratory network is fully equipped to support our customers with sampling, logistics, fast turnaround testing and reporting.

Field sampling at strategic points along the pipeline and terminals, along with rapid and experienced laboratory analysis, help the client understand and identify problems quickly and effectively, helping pipeline customers formulate and implement rapid corrective action if needed. Pipeline products sampled and tested include crude oil, petroleum refined products, chemicals, condensates, fuels, etc.

Key Features	Customer Benefits
150 years of technical excellence in the Oil & Petrochemicals market	Your product expert for crude oil, fuel, chemicals & Oil Condition Monitoring product advisory
Extensive global network of inspectors, surveyors and laboratories	Ability to test your fuels anywhere, any time
Independent testing results	Quality assurance executed to the highest standards, trusted by all parties
Global LOAMS SM OCM Platform	Exclusive software that brings clarity and meaning to complex laboratory results and maintenance recommendations that improve production and save money
Personalized Account Management	Account manager will be your primary contact, regional teams available for direct communication 24/7

Testing & Analysis

Bureau Veritas laboratories offer analytical services for chemicals, crude oil, fuels and lubricants with fast turnaround times on testing and reporting. We support our customers with specialised sampling and logistics arrangements.

Our laboratories are engaged in continuous improvement to ensure we consistently achieve best-practice in terms of accuracy, speed, traceability and efficiency.

Our global technical governance team monitors laboratory operations to ensure reliable, repeatable test results.
