2 In the browse tree tab, click on the worksites folder to view your equipment unit list. Find and check off the unit you want to copy and click the copy button. This action will open up the copy wizard.

Copying Industrial Equipment

3 In the wizard, add the destination customer in the “Destination Worksite” field along with a new unit ID and/or serial number. Notice that you can de-select any components to the new unit. After that, click the red “Confirm” to continue. A new window will open and click “OK” to save.

Please note, copying units will save you time when creating units with similar make and models. For each unit you copy, a new unique unit ID is required for the copy you are creating.
