## Modifying Industrial Equipment

**4** In the modify unit window, you can make changes to the unit ID, serial number, unit of measurement for age units, and modify components. Components are listed within the graph type column and can be modified by clicking on the specific component you plan to modify. This action will expand the modify unit options.

**5** After expanding the modify units, you now have access to edit more details related to a specific component. Click done and then click the save and close button to save your changes. You have successfully modified your industrial equipment.
